
MCF
MolCrystalFlow

Brand foundation

Advanced computational chemistry and materials infrastructure

Positioning: a serious deep-tech platform for molecular and crystal workflows.

Brand attributes: precise, intelligent, fast, structured, future-facing.

Design principle: maximum signal with minimum visual noise.

Visual metaphor: a crystal at the intersection of motion, computation, and discovery.

Logo system

Use the simplest version that stays legible in context

Primary lockup

Icon

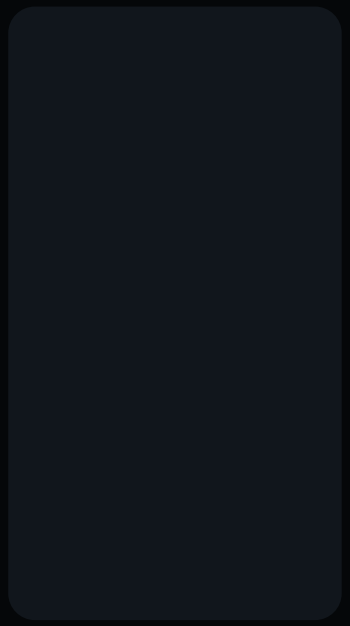

Wordmark

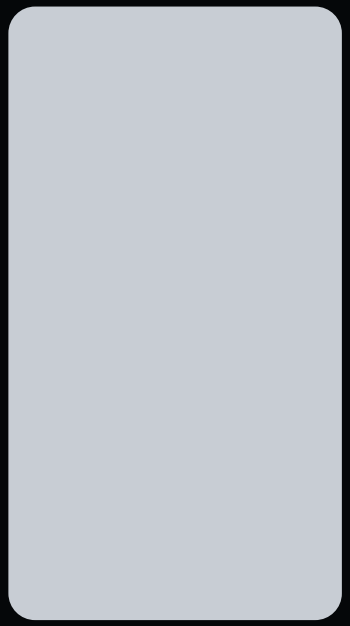

Color system

Neutral-first, with blue used only as an energy signal

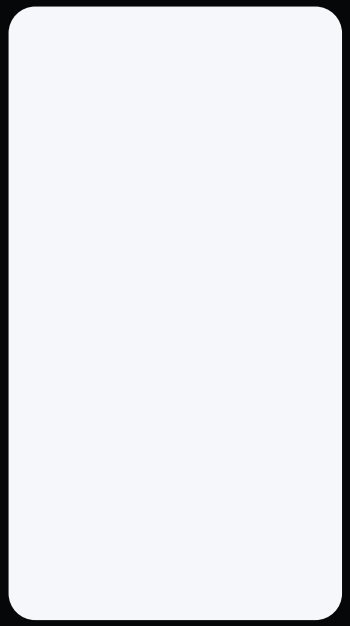

Void Black
#050709

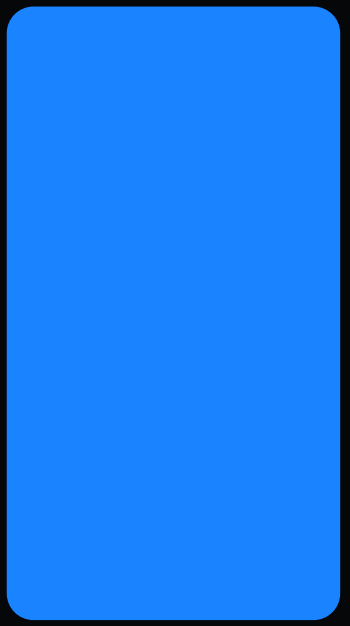

Graphite
#11161C

Metal Silver
#C8CDD4

Ice White
#F5F7FA

Ion Blue
#1A83FF

Typography

A technical system without looking like a sci-fi game

Space Grotesk

Display and headings - Medium / SemiBold

Inter

Interface and body copy - Regular / Medium

IBM Plex Mono

Code, data, structures, and scientific metadata

Keep the original wordmark as artwork; do not recreate it by typing the name.

Logo usage

Preserve contrast, spacing, and restraint

Do

- Use on near-black or clean white backgrounds.
- Maintain generous clear space.
- Prefer flat one-color versions at small sizes.
- Use Ion Blue only as a highlight.

Do not

- Stretch, rotate, or rearrange the logo.
- Add shadows, bevels, or extra gradients.
- Place over busy scientific imagery.
- Use multiple bright accent colors.

Voice and messaging

Precise, calm, and credible

Core descriptor

Computational workflows for molecular crystal discovery.

Suggested short lines

- From molecular input to crystal insight.
- Structure generation, validation, and optimization in one flow.
- Accelerating computational materials discovery.
